

BRAD KING

Brad King, M.S., MFS, nutritional researcher and bestselling author, is the designer of the Awaken Your Body (Brad King's) Ultimate line of supplements. Effective nutrient supplementation can often be the missing piece to your metabolic puzzle. Brad King's Ultimate supplements and lifestyle recommendations are designed to support and optimize metabolism at the cellular level – resulting in abundant health, energy, and longevity.

BRAD KING'S

Ultimate Calorie Burn

What to expect from this product:

- Burn calories
- Manage appetite and cravings
- Support healthy metabolism
- Reduce body fat
- Enhance energy, endurance & stamina
- Enhance mental acuity, focus & concentration
- Enhance mood

Burn Calories and Increase Concentration. Whether you are a student that needs more mental acuity and concentration, an athlete that is looking for an extra boost in body and mind or a dieting expert desperately seeking success, **Ultimate Calorie Burn™** is your perfect choice.

The ingredients within **Ultimate Calorie Burn™** stimulate the body to use more calories throughout the day while helping to enhance overall energy levels and mood. The result is a sustained calorie burn without the jitters that are almost always associated with high-dose caffeinated formulas.

SUGGESTED USAGE:

Take 2 capsules 1–2 times daily before exercise or when maximal mental and physical energy demands are required. To ensure maximum effects and to avoid desensitization, do not take more than 5 times per week.

Note: Consult your health care practitioner if you take insulin or blood thinners. For best results, it is recommended to take small frequent breaks (i.e., a few days each month) from any product that contains caffeine.

FORMULA:

EACH 2 CAPSULES CONTAIN:

Chocamine™ Plus

(*Theobroma cacao* extract blend with 8% caffeine) . . . 1000 mg

Chocamine™ Plus contains several important phytochemicals found in chocolate, such as thermogenic compounds, as well as mood and cognitive performance-enhancing compounds.

Preliminary studies show that Chocamine™ Plus promotes healthy increases in energy levels, promotes positive mood and outlook and improves mental & physical performance.

Capsimax™ (patented capsicum extract) 100 mg

Capsimax™ utilizes a breakthrough beadlet technology that delivers the metabolic boost of capsicum without the burn! The encapsulation technology of Capsimax™ delivers highly effective levels of active capsaicoids without any oral or gastric irritation associated with unprotected hot red pepper.

Capsicum extract has been clinically documented to enhance fat burning through diet-induced thermogenesis, the process whereby excess calories are converted to heat rather than stored as fat. Capsicum also reduces appetite, ultimately making it easier to follow a proper diet.

BioPerine® Black Pepper Extract (*Piper nigrum*)

(fruit) (Standardization 95% Piperine) 1 mg

BioPerine® is a research-proven, standardized extract from black pepper that has been shown to both assist in the uptake and bioavailability of other nutrients. BioPerine® has been observed in studies to enhance the absorption of other nutrients by a whopping 60%.

Encapsulated in a vegetarian capsule (carbohydrate gum, purified water, silica) with microcrystalline cellulose, magnesium stearate with silica. This product does not contain any: dairy or artificial colours.

ALL FORMULAS ARE MANUFACTURER TESTED AND 3RD PARTY VERIFIED FOR POTENCY
